### **Community Development**

The City has a number of building projects going on at any given time. The Operational Update will provide a summary each week of the various projects and a status update. A flowchart is provided with the various stages of development. A green box indicates that stage is complete, a yellow box indicates in progress, a red box indicates the project has been halted by the developer or the City and a gray box indicates the developer has not reached that phase yet.

Molly and I had a great time in the Quad Cities this past weekend. We lived in Davenport for 14 years and we watched the Bix 7 Road Race every year from in front of First Presbyterian Church. I had to move 900 miles away and pack on 30 pounds before deciding to take it on. Nonetheless, my time was 1:48:01, I finished 7186 out of 8074 that finished, 269 out of 303 in my age group (55-59), but most importantly I finished first in my age group and first overall for all entrants from Pilot Point. Below is my post-race photo (complete with Pilot Point Fire Department cap) and a photo of what real corn looks like.
